

Job Vacancy – **Validation Engineer**

Advanced protects lives, we're known all over the world for making the best quality, best performing fire systems, we operate as part of the Halma Group a market leader in specialist safety, health and environmental technologies. www.advancedco.com www.halma.com

Working for Advanced Ltd as our **Validation Engineer** you'll be part of a small team focused on making sure our existing and new products conform with specifications, regulations and standards. You'll also play a key part in the development of validation test equipment and test procedures.

About the job:

You will:

- Develop tests that meet product requirements and related standards in collaboration with Project Teams.
- Carry out validation testing on electrical / electronic, embedded, MS Windows and Cloud applications. Reviewing and reporting the results.
- Through your knowledge of automated testing frameworks and Python coding, support the implementation of test automation.

About you:

- You'll have a technical qualification ISTQB, HNC level or above in a relevant subject. Equivalent hands-on testing experience is seen as equally valid.
- Be a self-starter who owns tasks and takes satisfaction in 'getting a good job done'
- Works collaboratively, with the ability to convey key information to ensure a shared understanding.

What we offer:

- Full-time, permanent role within a growing company with real purpose.
- Competitive salary (and discretionary bonus)
- Contributory Pension
- Halma shares (after qualifying period)
- 25 days holiday (plus bank hols)
- Flexible start finish times

Job Location: Claycliffe Office Park, Barnsley, S75 1HQ (hybrid working available in line with business needs)
