

AdvancedLive 2.0 is here!

What's new in release 2.0?

You'll now receive instant text alerts as soon as your fire system detects a fire.

A simple dashboard puts you in control by showing clear, real-time progress of the alarm.

The intuitive pinch-to-zoom map provides critical information at a glance, to help you avoid unnecessary evacuations and deal with real fires in the safest way possible.

Latest features

Instant text alert to mobile upon fire alarm

Simplified and colour-coded response page

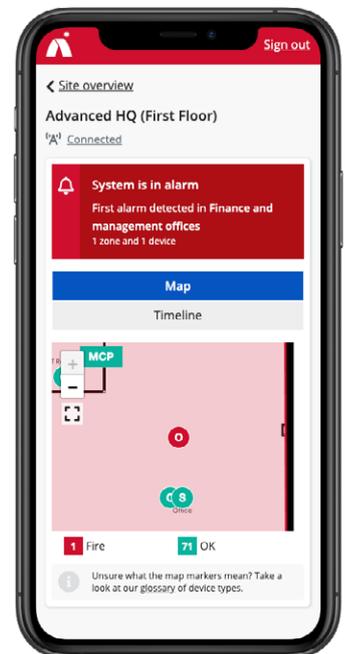

Easy pinch-to-zoom map view, full screen option

Highlights new detections as they arise

Automatic link timeout 30 minutes after reset to prevent misuse
